and in the Corriere della Sera, Lombardy news section, respectively of 26 and 28 May 2022.

Engineering 2K is characterized by engineering solutions and customized feasibility studies, with particular attention to the issues of innovation, energy saving and respect for the environment.

*Gianluigi Mussinelli, Chief Executive Officer: "Sebino is confirmed with the acquisition of this mega order as the undisputed leader for fire prevention systems on large surfaces, thanks to its design and execution skills. This operation, worth a total of 400 million euros, as reported in the press, confirms the strategic nature of Northern Italy as the starting point of the South-Northern Europe corridor for integrated logistics.*

*We remind you, as a further confirmation, that the new logistics platform of the port of Trieste has, from 2022, the port of Hamburg among its main shareholders. We thank the General Contractor and the final Client for the great consideration and trust that has been given to us, to which we will respond with the dedication and stubbornness that distinguish us. This result is the result of many years of efforts and technological, organizational and managerial determinations, which have led us to be the preferred supplier of fire extinguishing systems, in the market segment of logistics platforms, supporting the technological evolution that they have had in the last years."*
